Safe Zones™

One place to track all tests, outcomes, temperatures for safety at work and school

Key Features:

- Import your employees, students, faculty, and contacts directly from your Contact Management System or upload from a CSV export.
- Health Badge for all Safe Zone contacts for quick daily scanned check-ins, wth or without a temperature check.
- Define your own Safe Zone Test requirements, outcomes and expirations per test.
- Automated, customized communication for required tests, reminders for expiring tests.
- Test outcomes are automatically evaluated according to your Safe Zone requirements and are checked at every Health Badge check-in.
- Test outcomes and temperature readings are indicated as verified by admin or self-certified.
- Test requirements can be updated at anytime as new tests become available to keep people safe.
- Mobile app for contacts to hold Health Badge for check-ins and to self-report tests and temperature.
- Personal information is only used for Safe Zone verification.
